

BOARDING

Over the past two years, Scarborough College has invested well over four million Pounds in its boarding facilities. The results are two remodelled boarding houses that lift the concept of boarding to a different level.

The College's location is such that boarders have a genuine sense of 'closing the door and going home' at the end of each day. As a school that does not feature Saturday school, SC boarders can open their curtains on a weekend morning and see something other than school buildings.

This feature allowed architects, boarding staff and pupils to get together and discuss their idea of a home away from home. The results are homely boarding houses, designed as family houses and upgraded with modern details such as USB plug sockets and underfloor heating. Pupils coming home into this boarding environment take great pride in where they love, keep the place tidy and are far more excited to contribute to the boarding environment in general.

SCARBOROUGH COLLEGE

Founded in 1898, Scarborough College is one of Yorkshire's leading co-educational day and boarding schools for pupils aged between 3 and 18.

Since its foundation as a boys' school, Scarborough College has provided a life-changing education to boys, and girls eventually, based on high standards, a climate of aspiration and a commitment to providing an individualised learning journey for every pupil.

Initially, the Scarborough College Company was founded to give boys an opportunity to prepare for university while enjoying living by the seaside. The boys briefly lodged elsewhere when, in 1914, the College came under heavy fire by the German fleet. Again, in 1940, the boys were reallocated as the building was commandeered by the RAF to serve as a training establishment.

In 1972, the College opened its doors to girls, making Scarborough College a co-educational day and boarding school. Nearby Bramcote Prep School was acquired in 2012, which means that parents had access to one outstanding school on the North Yorkshire coast providing independent education for children aged 3 to 18 years old.

IB WORLD SCHOOL

Scarborough College is an IB World School. Sixth Form students sit the IB Diploma Programme, which is a rigorous programme of six subjects and three core elements including an Extended Essay. In years 10 and 11, the College offers GCSEs and pupils from Year 7 are prepared for both GCSEs and the IB Diploma.

Steadily throughout its change to the IB Diploma, over a decade ago, our students have excelled in both the IB and their GCSE results. Scarborough College is ranked among the top IB schools in the

North and there is a good variety of subjects on offer, providing depth and breadth to the curriculum.

Year on year, well over 90 percent of Scardeburgians leaving manage to enrol with their first university of choice, including Oxford, Cambridge and Russell Group universities. In addition, the IB Diploma is an excellent pathway to top universities around the globe, which means every year, there are enrolments in North America and continental Europe.

YORKSHIRE GRIT AND CO-CURRICULAR

Ideally situated between the stunning North Yorkshire Coast and the North Yorkshire Moors, Co-curricular life is typified by a wealth of options. Prep School pupils enjoy Beach and Forest school and tend to keep their wellies at the school – just in case.

Starting in Year 7 and running for three years, Yorkshire Grit is the school's jewel in the co-curricular

ADMISSIONS

Scarborough College is a non-selective school and we start boarding at Year 7. Weekly and Flexi boarding places are available (subject to availability). To enquire, please visit our website www.scarboroughcollege.co.uk or speak to our Registrar, who will be happy to guide you through the next steps. We can also put you in touch with current Forces family, so they can share their experiences with Scarborough College.

crown. Yorkshire Grit was designed to introduce boarders foreign to Yorkshire's rugged and hardy nature, but also to harness and foster it in the pupils born on these shores. Yorkshire Grit is a combination of outdoor activities, courses and activities that stimulate the brain as well as the body.

Children in the Yorkshire Grit programme may have surfing lessons, leading to an official certificate by Surf England, one half term; and mindfulness lessons and activities the next half term. Yorkshire Grit was designed to build resilience and resourcefulness, though it is also an opportunity to make new friends and strengthen existing friendships.

Scarborough College pupils play sport every day and our fixtures

calendar is packed with hockey, rugby, cricket, netball and a variety of other representative sports. Pupils can also represent their Academic Houses in many sports and through both the Cricket Centre of Excellence and Golf Centre of Excellence, there are links with professional sports clubs and world-class training.

The Enrichment Programme was designed to ensure that boarding pupils and day pupils spend time outside of the classroom and off the pitch, and so they can engage with one another in a variety of different activities. This programme includes a chess club, a debating team, a senior school choir, different sports activities and many others.

WHAT FORCES CHILDREN SAY

What I like about the boarding is that during the weekends, you're always doing something. We went shopping in Manchester and we do cinema trips but we also visited Heritage places like Castle Howard.

I feel that the people at Scarborough College understand our situation and especially the people in the house. Forces kids move around a lot and that can be really tough. Being here, knowing that you're here for a while, it means you can make this place your home. It's stable here and it's the family away from other family.

The IB is great because it leaves you with the option to go and study, and live, in the places where you've lived. We lived in Germany for a while. I don't know that I want to go back but with the IB Diploma, I know I can if I want to.

Hope, Year 12

It is very easy to make friends here. You don't stand out and children don't treat you differently because you're a forces kid. The classrooms are small and the boarding house is small and that's what I am used to. The atmosphere is very friendly. I love my boarding house because we are from so many different countries and that's a little bit like me.

Joseph, Year 7

I love that I can play hockey here. My mum played for Yorkshire and

my dad played for the Army team, so I come from a real hockey family. Hockey and cricket are two important sports here.

You're not always at school. Sounds funny but because we don't board on the school site, you get to go home and you get to walk away. The staff in the house don't talk about school so much, which is good. You just get to have normal conversations. The boarding structure is good; the way in which we mix prep time and activities. There's a clear structure to the evening, so that I can focus on school work.

Riley, Year 10 and Head of Crews House

QUOTE MR GUY EMMETT

I am often asked why Scarborough College is described as a family. There are a number of reasons why I feel we stand out. This year, we have doubled the number of teachers involved in boarding, meaning we have a 1:4 ratio of teaching staff to children, ensuring that we give outstanding pastoral and academic support. We have also invested over \$4 million in our boarding houses and provide a beautiful home where children can study, be with their friends, cook together and take advantage of the evening activities. Boarding pupils have busy weekends and are taken on trips at no extra cost; whether it is visiting Harry Potter World, indoor ski trips or enjoy ice cream at the seaside, children will feel this is a home from home.

PASTORAL CARE

Perhaps a mention of contact with home, that we have a pastoral support network, reports sent home - phone report etc so parents feel they are 'in touch' with the school even when they are away
